
DEPC-Treated H2O

DESCRIPTION

DEPC-treated Water is suitable for use with RNA. It is prepared by incubating with 0.1% diethylpyrocarbonate (DEPC), and is then autoclaved to remove the DEPC. Sterile filtered. No DNase or RNase activity detected. Molecular Biology Grade.

STORAGE

Supplied as ready-to-use RNase and DNase-Free H₂O, 500 mL. Shipping and store at RT.

APPLICATIONS

This item is used for molecular biology assay in the RNase and DNase-free conditions.
