TBP0165-5	5 mg
TBP0165-10	10 mg

Description

Tribioscience Recombinant human fibronectin (rhFN), produced using a rice endosperm expression system, which is free of animal and human components, minimizing the risk of contamination from blood-borne pathogens such as viruses or prions. It exhibits high purity and has been shown to possess physical and biochemical properties equivalent to those of plasma-derived FN.

Specification

Source: Rice Grain (*Oryza Sativa*)

Appearance: White lyophilized powder.

Molecular weight: 206 kDa

Formulation: It is purified from rice endosperm.

Purity: More than 95% as determined by SDS-PAGE.

Endotoxin: Less than 0.5 EU/ug

Storage: Stored at temperatures -20°C for at least 36 months.

Applications: Cell culture supplement, antigen of IVD reagents, cosmetic ingredients
