

Catalog
TBS8125

Unit Size
500 ml

Description

Tribio Vero Virus Maintenance Medium is a ready-to-use, serum-free liquid medium formulated for Vero cells, promoting optimal cell viability and efficient viral replication. It is ideal for viral production, infection studies, and viral titer determination, minimizing serum-related variability and streamlining workflows. This medium supports stable adherent Vero cell culture throughout the various stages of virus production.

Application

- Viral infection experiments.
- Viral propagation and production.
- Virus titer determination.
- Studies requiring serum-free conditions to reduce protein interference.
- General virology research with Vero cells.

Properties

Concentration:	Ready-to-use
Form:	Liquid
Sterility:	Sterile filtered
Composition:	[+] L-glutamine, [+] phenol red, [-] sodium bicarbonate
Storage:	Store at 2-8°C

Main Features

- Ready-to-use liquid medium optimized for virus maintenance
- Serum-free and animal component-free formulation
- Supports Vero cell viability and viral replication
- Ideal for virus infection, propagation, and related virology research
